CRAIGHEAD HOUSE

SEPTEMBER 2022 Edition

Ten years ago, in September 2012, Craighead House Committee Corporation bought Craighead House from two Craighead cousin couples: Jim and Carol Craighead and Bill and Betty Craighead. Committee members donated a little more than half the money to buy the property and committed to a five-year mortgage to Bill and Betty Craighead for the remaining funds. An annual campaign was started to defray operating costs, make mortgage payments and, if there was anything left over, to make repairs and improvements. Each year when funds ran low in August, September and October, board members passed the hat to pay the mortgage, which was finally paid off in September 2017. Renovating the house has accelerated since then.
